Lateral Rod Support: art. V446

Central Rod Support: art. V447

Rod: art. V538

To fix Rod Support to the shelf,
the suggestion is to use:

M5x22mm screws for 16mm th. shelf

M5x25mm screws for 19mm th. shelf

M5x30mm screws for 25mm th. shelf

Screws not included.

***= variance in screw length of +/-1 mm,
is acceptable**

What to CONSIDER when determining the rod cut:

for Aesthetic Reasons: **6 mm (15/64")** gap to side panel

Overall of each support (lateral/ central) : **14mm (35/64")**

Example:

rod= 1000mm / 39 3/8"

panel width= 800mm / 31 1/2"

Rod cut= 1000-200= 800(panel width) -6-6-14-14= 760mm / 29 59/64"
